

Title: Climate Change Indicators Reports

Office: Office of Air and Radiation

POC: Michael Kolian, kolian.michael@epa.gov

Description of the Challenge:

The Office of Air has published several climate-related indicators and datasets:

<http://www3.epa.gov/climatechange/science/indicators/index.html>

Develop improved data visualizations or a consolidated dashboard associated with the climate change indicator data.

Hopeful Outcome:

Innovative data visualizations that represents the climate change indicator data. Incorporation of other agency data with the climate change indicator data provided by the EPA. A dashboard that consolidates all of the visualizations which would allow individuals to easily understand the data at a glance.

Skills Needed:

Coding/development experience, SAS and/or R
